DETAILED ACTION

Allowable Subject Matter

Claims 1, 3, 5 and 8-16 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor suggest, in the claimed combination, an actuator having a recessed movable electrode, the actuator comprising; a substrate including a stationary electrode attached thereto; a resilient structural layer including a first end fixed with respect to the substrate, a second end suspended over the substrate, and a surface between the first and second ends facing the substrate, the surface having a proximal portion and a recessed portion different from the proximal portion formed therein, the proximal portion being separated from the substrate by a distance less than the distance separating the recessed portion from the substrate; and a movable electrode having a first portion in the recessed portion of the resilient structural layer surface and a second portion in the proximal portion, whereby the first and second portions of the movable electrode are separate from the stationary electrode by different gaps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
